Town hall hours:  
Monday 9-12  
Wednesday 9-12

## 24TH OF JULY THANKS!

It is sad to see one of the highlights of the summer come and go. But this year a big thank you is needed to the many people who helped make the 24<sup>th</sup> of July Celebration such a huge success. The day was filled with many fun activities and events that were enjoyed by all. Thanks to the following who chaired the various events and all those who helped them:

Trenton Youth Council - The Annual Glow Run  
Town Council- BREAKFAST  
THANKS TO ALL THOSE WHO PARTICIPATED IN THE FAMOUS TWICE AROUND THE BLOCK PARADE AND ESPECIALLY JUDY OGDEN FOR MAKING IT ALL HAPPEN!!  
Hillary Andrew & Rebecca Riddle along with all those who helped with the games- CARNIVAL GAMES  
Kristine Lawler- CONTESTS FOR ALL AGES  
Laura Brough, Meghan Downs and Edith Simmonds - TICKET & SODA SALES  
Paul & Stacey Wangsgard- COW PIE SQUARES  
Trenton Fire Department- FIREWORKS  
Youth Council- VOLLEYBALL TOURNAMENT  
Macall Smith- T-SHIRTS  
Teresa Barton, Pauline Udy and all those who helped - LUNCH  
Thanks to all of you who attended and enjoyed the day.  
Councilmember Stephanie Merrill for arranging & Out-law catering for providing a great dinner.  
Thanks to all of you for being a part of the fun!

We are so lucky to live in Trenton and enjoy events like the 24th!!!

### Water info

Frequently Asked Question: How do I get a new water connection? If you would like to build or water stock in 2022, here is a summary of how it works. If you have any questions about the details, I would be happy to discuss it with you. -Councilmember Ludwinski 435-764-2487

**Step 1:** Complete an application and submit it between January 1st and January 30th of each year. Applications are available on the town website, from the town clerk, or from Councilmember Ludwinski. Applying for a connection requires that you either own the property or are under contract to purchase the property. (So if someone wants to buy your land, but only if they can get water, they can sign a sales contract with a contingency that they are awarded a water connection.)

**Step 2:** At the first town council meeting in February, we will write everyone's name on a ping pong ball, shake them up, and blindly draw out 2 connections and 2 alternates.

**Step 3:** If you win, there are deadlines to meet so that the water is put to use during 2022. (our laws prohibit water hoarding). If your plans change and you decide not to use the connection, the water connection will be awarded to the alternates and they in turn will have new deadlines.

September 11, 2021 has been designated as the National Day of Service. The Trenton Town Council would like to encourage everyone to look for ways to serve your neighbors on this day. As part of this day garbage bags will be available at the park at 10:00 a.m. that can be used to pick up trash along the roadsides. Milk and doughnuts will be provided at the pavilion beginning at 11:30, so bring your full garbage bags back to the park, while we come together as a community for visiting and treats !!

### Planning & Zoning Reminder:

Just a reminder that any structures that you would like to build, including all outbuildings over 200 square feet, require a Zoning Clearance. You can get a Zoning Clearance from the Town Clerk during regular town hall hours or on the town website, trentonutah.org. The Planning & Zoning Commission meets each month on the 3rd Tuesday and all information that will be considered at that meeting needs to be turned in at least one week prior to the meeting. If you have any questions you can contact the clerk at 435-563-9929 from 9- noon on Mondays and Wednesdays for more info.

## UPDATE FROM THE CACHE MOSQUITO ABATEMENT DISTRICT

This is a public information announcement from Cache Mosquito Abatement District - CMAD.

CMAD has two modes of controlling the mosquito population here in the valley. Larvaciding (finding the mosquitos in the larva and pupa stages and treating the standing water) and adulticiding (fogging).

CMAD's foggers are calibrated at the beginning of each season so that they are putting out the correct amount of product while spraying. The foggers are calibrated for a 300' swath. If there is an area that is big, the swath is only effective for about 300'. The wind direction and structures will affect the area as well. It is only effective if the mosquitoes are up and active. The truck has a GPS system that records the speed of the truck, the time, and the flow rate of the fogger.

The foggers all have a pump that is run by variable speed. What this means is, the pump will spray according to the speed of the truck. If the truck goes too fast or too slow it will shut the pump down. Asking the technician to slow down will not give any more product then going the faster speed. They can travel between 3 and 20 mph and it will spray the same amount of product.

The product that we use to spray is called Kontrol 30-30. It is a quick knockdown, low odor, non-corrosive synergized synthetic pyrethroid. Most of the product that comes out of the spray nozzle is mineral oil which acts as the carrier agent for the Kontrol. We spray at dusk to be able to hit those mosquitos that have the potential to carry the West Nile Virus here in the valley. Another reason we spray at night is so the bees are safely home in their hives.

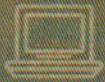

CMAD has been getting a lot of calls lately for mosquitos that bite during the daytime more than in the evening. The species of mosquito that is causing the most calls and concern right now is a flood water mosquito. It is more prevalent during the day which makes it harder to kill at night when the fogging is taking place. This year is a dryer year and we are surmising that farmers are relying more on flooding their fields instead of the rain thus causing more standing water where normally it is dry. This type of mosquito will lay its eggs in soft mud and then can go dormant for up to seven years. Once the water hits the eggs then we see a hatch. The abatement district is working in the areas of the valley to find that standing water and treating those areas. If you know of standing water around your house, yard or farm please let them know and they can come and treat those. It is more economical to treat the water and more effective then fogging. The abatement district understands your concerns and is aware of them. This species of mosquito does not carry any disease at this time but as you know and recognize are a nuisance.

Please eliminate any standing water around your home or business. If you are not able to do this because of the size of the water body please give us a call and we will send out a larvacider to check for larvae and treat if necessary.

Sincerely,  
Richard Rigby  
Manager

Please call 435-764-6839 if you have any questions or concerns.

Now you can pay your bills online As a way to offer you more choices in how you pay your bills, Trenton Town, now lets you make payments online. We have partnered with Xpress Bill Pay, the premier provider for online payment systems. All you need is an internet connection through a web browser and an email address. Once you sign up for your free account and start using this service, you'll wonder how you ever got along without it! It's simple to use. Every month we'll send you a reminder email to let you know when your bill is online. Then, you just log into your account at [xpressbillpay.com](http://xpressbillpay.com) and view your bill. You can also see two years' history of your account online, so you can compare your current bill to a previous bill. When you're ready to pay your bill, select a payment type. You can pay with credit card, debit card, or electronic funds transfer. Enter the information and you're done! It's that easy, and only takes you a few minutes each month. Or you can set up your bill on Auto Pay and have it automatically paid for you each month! We offered this service at the request of our customers - you asked and we delivered! To sign up, go to [www.trentonutah.org](http://www.trentonutah.org) and follow the instructions there. And remember, it's free to sign up and free to use. Sign up today by going to [www.xpressbillpay.com](http://www.xpressbillpay.com)
